THE PROBLEM

Parents ask about eligibility, documents and fees all week, and replies come late.

WHAT IT DOES

On WhatsApp and your website chat it answers from your prospectus, fee notes and circulars. It does not decide admissions. If it cannot answer, it offers to pass it to your office.

HOW WE START

How we start

1

Discovery

A short conversation about where admission questions pile up.

2

One job, one channel

We start with a single use case, not everything at once.

3

Your information

We load your prospectus, fee notes and circulars and test on real questions first.

4

Review together

We check results against what we agreed, then decide the next step.

What we need from you

-  Your prospectus, fee notes and circulars as text or a CSV file
-  One person who decides on refund and concession questions
-  A handful of real parent questions to test with

No timelines or prices are promised on this page; both are agreed in discovery.

Bring one job your office repeats daily.

Not live yet, and what we do not claim

- Admission outcomes or guarantees. Decisions stay with your staff.
- Formal security or compliance certifications. Tell us your children's-data needs first.
- Email, SMS and voice channels, reminders, bulk messages and online payments.
- Reading PDF or Excel files directly, and ready-made links to school ERP systems.

On the roadmap, not available today: Automatic reminders and follow-ups; email, SMS and voice.
